- Class 0 and EN 13501-1 fire performance classified to A2-s1, d0
- UV resistant
- Factory applied colour
- Low maintenance
- Factory applied colour
- Easy to install
The ideal low maintenance, rot free alternative to traditional timber weatherboard.

Fibre cement offers both contemporary and flexible design options, and is used by many architects and homeowners to create stunning facades. The simple combination of wood cellulose, sand, synthetic fibres, water and cement make fibre cement one of the most environmentally friendly and comprehensive building products available.

Hard as stone easy as wood.

The material’s multi-layered fibre structure supports the cement and other elements, which gives it impressive strength, and means that it can be far thinner than concrete.
Which Cedral style suits you?

**CEDRAL LAP**
Cedral Lap planks are fitted in a traditional lapped style.
Length: 3600mm
Width: 190mm
Thickness: 10mm
